

Temenos Core

The Beating Heart of Banking

Over 950 banks leverage Temenos Core across Retail, Business, Corporate, Wealth, and Payments sectors. With direct access to modular core capabilities and leading tooling on the platform, they rapidly modernize and deliver innovative banking services at the forefront of their markets.

Temenos Core for Retail Banking

Offers a functionally rich, flexible and agile core processing engine that enables your institution to offer personalized, customer relevant products.

Temenos Core for Wealth

Offering support for Securities and Derivative trading activities to support Wealth and Mass Affluent sectors. Supporting the entire trade, settlement, and custody cycle for a full range of instruments.

Temenos Core for Payments

Through configurable functionality, the Temenos Payments offering can empower financial institutions to extend and enhance capabilities through a suite of powerful tools and frameworks.

Temenos Core for Business Banking

Offers cutting-edge functionality that enables banks to create innovative banking products targeting all Business Banking customers.

Temenos Core for Community & Inclusive

Providing the capability for both Community and Inclusive financial institutions everywhere to go live quickly and to offer new products aimed firmly at their specific customer bases in record time.

Temenos Core for Corporate Banking

Temenos Core for Corporate is an integrated core banking system with deployable components which cover all areas of corporate banking.

Temenos Core for Islamic Banking

Temenos offer a range of modules that Islamic banks can access to aid them in offering a high quality Islamic financial solution for retail, business, corporate and trade finance, delivered using a flexible product designer.

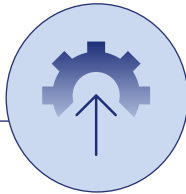

Modular Banking Capabilities accelerating Core Modernization

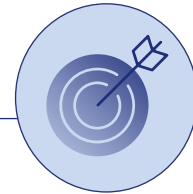

Temenos offers a leading breadth & depth of modular Core Capabilities for all segments in banking. With modularity we offers banks optimal choice in how to engage with the Temenos core offering, in the best suiting pattern.

Temenos offers **Modular banking capabilities**, enabling banks to adopt an incremental approach to modernization of existing core banking technology: Instead of overhauling entire core banking systems at once, banks can selectively modernize specific areas where it needed most and create decoupled solutions made from modular capabilities.

Progressively modernize legacy core systems, by gradually replacing outdated components with robust, modular core capabilities that offer the rich Temenos functionality. Offered on a small software footprint, serverless deployment and with modern APIs, banks can deliver their business strategies one by one.

Temenos' modular capabilities are available on-premises, on cloud, and as SaaS **to future-proof their core banking environments**, but also beyond: On the Temenos Banking Platform, banks can also leverage our Payment, Digital, Financial Crime Mitigation and AI capabilities to modernize end-to-end banking processes.

**950+ banks use
Temenos Core
Banking**

**600+ Banks use
Temenos Digital**

150+ Countries

**One platform
One code base**

Maximum Scalability, Minimum Footprint

Banks need to deliver large transaction performance to support new business models but also need to deliver to sustainability goals. Learn how Temenos Core can help you decarbonize your banking operations, by adopting modular core banking capabilities.
